Liner foot: _____ Fee per foot: _____ Total Due: _____

Storage Terms and Process

- The Litchfield Farmers Club offers inside winter storage space for RV's, campers, boats and vehicles on a limited basis due to the amount of area inside our buildings that can accommodate items to be stored.
- All items will be measured from front to rear and charged a one-time fee based on the total lineal footage.
- Items will be placed in storage on a first come first in basis until any of the storage buildings become nearly full.
- Items will be chosen based on size and length to fit the remaining space in the buildings.
- The process takes time and in an effort to prevent damage and to place as many items as possible within storage area your patience is appreciated.
- The Farmers Club's ultimate goal is to store all present items inside, however due to limited inside space, outside storage on the grounds at a reduced rate is available.
- **Storage Day takes place each year on the third Saturday of October.**
- **All items must be removed on the third Saturday the following April.**
- Any item not picked up within seven days of the scheduled removal date will be charged an additional \$25.00 per week until removed.

Storage of vehicles & equipment at the Litchfield Fairgrounds is a privilege extended only with the understanding that the Litchfield Farmers Club is NOT responsible for theft, vandalism, or any other loss related to the storage of such items. In storing such items, the owner releases Litchfield Farmer's Club from all loss and/or claims resulting from such storage.

I hereby agree to the above terms of storage on all items at the Litchfield Fairgrounds, and release the Litchfield Farmer's Club of all claims and any responsibility for any and all loss or damage that might occur, and personally accept the responsibility for such.
